Chairman's report

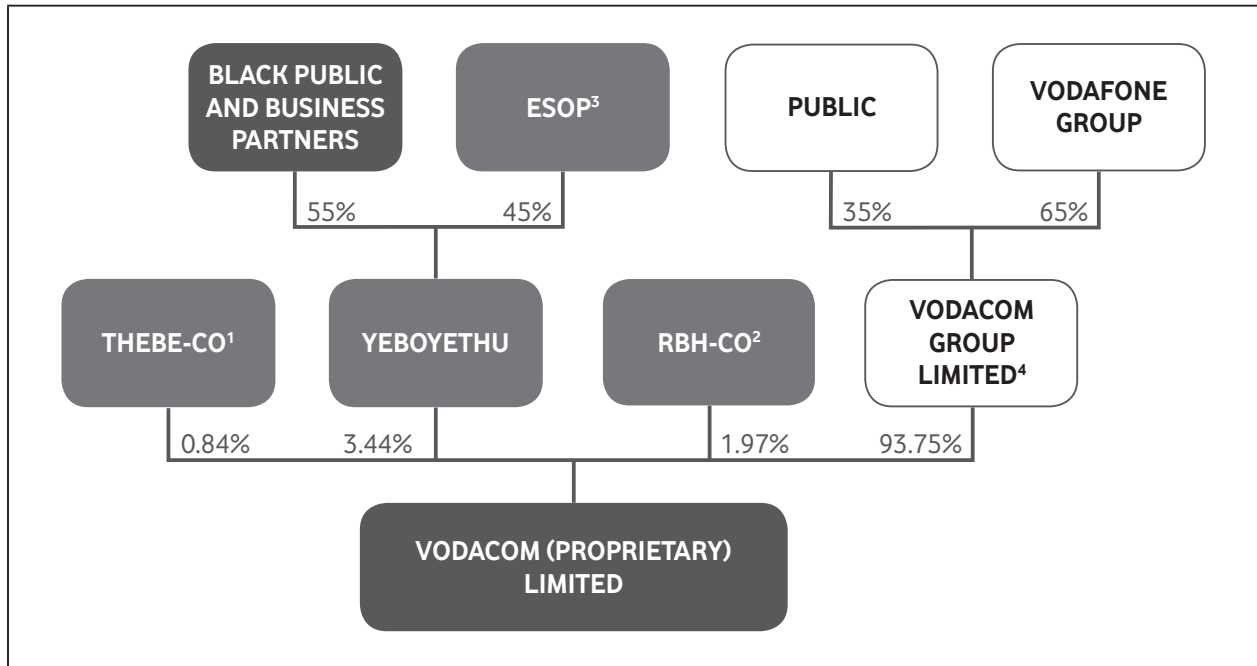

for the year ended 31 March 2011

Introduction

This is the third annual report to the shareholders of YeboYethu Limited ('the company'), covering the 12 months to 31 March 2011. The company's only material asset is its 3.44% stake in Vodacom (Proprietary) Limited ('Vodacom SA'). This Chairman's statement therefore reviews the performance for Vodacom SA.

The company overview

The structure of the company is as follows:

1. Thebe-Co – Thebe Investment Corporation (Proprietary) Limited
2. RBH-Co – Royal Bafokeng Holdings (Proprietary) Limited
3. YeboYethu Employee Participation Trust ('ESOP')
4. Listed on the JSE Limited

Vodacom SA relates solely to Vodacom's South African operations. In addition to these South African operations, Vodacom Group Limited ('Vodacom Group') has operations in Tanzania, Mozambique, Lesotho and the Democratic Republic of Congo, and the Gateway business that operates in 14 countries. The company shares in Vodacom SA are therefore not interchangeable with Vodacom Group shares and there is no direct correlation between the value of the shares of these two companies.

Unlike the Vodacom Group shares listed on the JSE, the company shares held by Black Public shareholders carry certain restrictions and may not be traded for the first five-year period and can only be sold to other broad-based black economic empowerment ('BBBEE') investors (with credentials that are the same or better) in the second five years. Unrestricted trading in the shares will only become possible after this ten-year period, at which time a market price for the shares will be established through an 'over the counter' mechanism.

It is important to understand the different terms that apply to the company's shareholders depending on whether you are a Vodacom business partner or a member of the public investing in your personal capacity (public shareholder), or alternatively a Vodacom employee represented by the ESOP (employee shareholder). The website provides relevant and detailed information to shareholders in this regard. If you are unable to access the website, you may contact the call centre for assistance.

Chairman's report

for the year ended 31 March 2011

Vodacom SA performance

Vodacom SA delivered a robust performance with service revenue growth of 4.8% to R46 337.0 million; despite a 16.4% decline in interconnect revenue following the cuts in mobile termination rates ('MTR's'), being the wholesale interconnection rates payable between operators for the termination of mobile calls on their respective networks as regulated by the Independent Communications Authority of South Africa ('ICASA'). Service revenue growth of 8.9% (excluding the impact of MTRs) was supported by the higher contribution from data revenue and increased voice usage from value offerings.

Data revenue increased 33.9% to R6 178.0 million due to increased penetration of mobile PC connectivity and mobile internet usage, with active data bundle users increasing 76.3% to 2.6 million and overall active data users increasing 34.6% to 9.0 million. Active smartphones on the network increased 81.0% to 3.6 million and mobile cards increased 47.9% to 1.1 million. During the current financial year greater value was added to the data bundles reducing the effective price per megabyte by 13.5%.

Customers increased 1.0% to 26.5 million. Excluding the impact of a change in disconnection rule (call forward rule was changed from 13 months to 7 months) in April 2010, 3.6 million customers were added, of which 3.0 million were prepaid customers, bringing total prepaid customers to 21.4 million for the year. Contract customer growth remained strong, up 14.0% to 5.1 million, adding 629 000 customers.

Total average revenue per user ('ARPU') (ARPU is calculated by dividing average monthly recurring revenue by the average monthly total reported customers during the period) increased 18.5% year on year to R156 largely due to minutes of use increasing 28.0% to 102 minutes, offset by a reduction in the average effective price per minute of 11.5% and lower interconnect revenue.

Valuation of the company option asset

The Vodacom SA option asset is the only material asset, and the valuation adjustment the only material income statement item recorded and disclosed in the annual financial statements. A net loss of R72.2 million was recorded in the current financial year (2010: R62.6 million, 2009: net profit R529.1 million). This translates to a value per share of R29.36 (2010: R33.03, 2009: R36.45)*. The reasons for the decrease in value largely relate to a lower amount of profits forecasted compared to the prior year valuation as a result of reduced interconnection rates, anticipated lower tariffs, increased competition and lower income in the forecast being offset by lower costs due to tighter cost management and containment.

It is, however, important to consider that Vodacom's BBBEE transaction is a long-term investment, which, through substantial financing provided by Vodacom SA has lowered the exposure for individual investors. Shareholders will appreciate that certainty cannot be claimed in a volatile environment. However, the overall value of the option asset or value per share remains higher than the price subscribed. The option asset increased by R602.3 million in 2009 and reduced by R90.2 million and R96.9 million in 2010 and 2011, respectively, resulting in net increase of R415.2 million.

(*) The value per share was calculated using the following formula: Vodacom SA option asset value/Shares in issue (ordinary shares and 'N' ordinary shares).

Dividend

The company recorded a net loss of R72.2 million (2010: R62.6 million, 2009: net profit R529.1 million) for the year ended 31 March 2011. The company received a dividend of R14.7 million (2010: R18.3 million, 2009: R6.4 million) from Vodacom SA. After the deduction of administrative costs, I am pleased to advise shareholders that the Board declared and approved an annual ordinary dividend of 74.0 cents per share (2010: ordinary dividend of 77.0 cents per share and a special dividend of 33.0 cents per share, 2009: ordinary dividend of 45.0 cents per share).

The ordinary dividend represents a dividend received from Vodacom SA on normal earnings. The special dividend in 2010 represents an additional dividend, which is not expected to recur.

Appreciation

In closing, I extend the Board's appreciation to the team at Vodacom SA for delivering a solid performance for the financial year ended 31 March 2011 amidst industry and economic challenges. To my fellow Board members, I express a special word of thanks for their dedication and counsel during the year. To each of our shareholders, thank you for your support.

Special Resolution number 1

"RESOLVED THAT the Company be and is hereby authorised to acquire ordinary shares in the Company, subject to the provisions of the Companies Act, No 71 of 2008, as amended ("the Act"), provided that:

1. The authority granted shall be valid only until the Company's next annual general meeting and shall not extend beyond 15 (fifteen) months from the date of this resolution;
2. Any repurchase by the Company of its ordinary shares in issue shall not in aggregate in one financial year exceed 20 000 (twenty thousand) of the Company's issued ordinary shares at the time that the authority is granted;
3. The authority may be varied or revoked by special resolution of the members prior to the next annual general meeting of the Company;

Having considered the effect of the Company of the maximum repurchase under this authority, the directors are of the opinion that:

- the Company shall meet a solvency and liquidity test as contemplated by Section 46 (g) of the Act;
- the Company will be able to pay its debts for a period of 12 (twelve) months after the date of this notice of annual general meeting;
- the assets of the Company will be in excess of the liabilities of the Company for a period of 12 (twelve) months after the date of this notice of annual general meeting which assets and liabilities have been valued in accordance with the accounting policies used in the audited annual financial statements of the Company for the year ended 31 March 2011;

- the working capital of the Company is considered adequate for ordinary business purposes for a period of 12 (twelve) months after the date of this notice of annual general meeting.

Reason for and effect of special resolution 1

In order for the Company to do this it needs the authority to acquire its own shares.
